## Unit Sets/Snap Out

Unit sets are a multi-purpose form frequently referred to by a trade name such as Snap-A-Part, Snap Out, and Speediset. At 5 Day Business Forms, we use the term Snap Out. Simply defined, a snap out form is a multiple-part carbonless or carbon interleaved form whose parts are fastened to a common stub that provides easy separation of paper and parts and, if applicable, carbon sheets.

5 Day Business Forms has the production capabilities to meet your business form requirements. Most snap out forms are completed in just 5 workdays.
