

# Barcoding / Jumbo Numbers

Barcodes are applied to products to quickly identify them. They are typically used in retail stores as a part of the purchasing process, in warehouses to track and manage inventory, on invoices to help with accounting, and in shipping to track packages. They are widely used in healthcare for hospital forms ranging from patient identification to medication management. They are also used to facilitate the separation and indexing of documents in libraries.

Common barcodes used at 5 Day Business Forms are Code 39, Code 128, and Interleaved 2 of 5.

The purchase of this GAP Agreement/Addendum ("Agreement") is strictly optional and voluntary. This Agreement is not required in order for You to obtain credit, or to obtain any particular or more favorable terms for credit, or for the vehicle purchase or lease. This Agreement is not credit insurance, nor does it eliminate Your obligation to insure the Vehicle as provided by the laws of the state of Washington. Purchasing this Agreement does not eliminate Your rights and obligations under the vendor single-interest and collateral protection coverage laws of the state of Washington.

By Your signature below, You acknowledge that You have read, understand and accept all of the provisions in this Agreement, that You have received a completed copy of this Agreement, and that the terms and conditions herein are the full and complete agreement that are not subject to oral representations. You affirmatively agree to purchase the protection described in this Agreement for the additional charge set forth as the Agreement Purchase Price.
